Most people are probably aware of the war between Ukraine and Russia. Though Canada is not sending troops, they and many other countries stand with Ukraine and are cutting Russia from the supplies that these countries have. New Norway school is also doing what they can to support Ukraine. The school has raised almost \$4000 dollars to donate to Ukraine. We also had a walk to show our flourishing support for Ukraine amongst the students. Although it may not seem like it, there are things we can all do to help like donating money or even just spreading awareness through social media will help Ukraine.
